

DATA SCIENCE FREELANCER SCHEME

© 2018 www.dtexperts.de

Role	Skills	Level
ML Practitioner "Deep"	Different ML algorithm (CNNs, RNN, GANs, etc.) realization with programming frameworks like Coffe, D4J, Keras, PyTorch, Tensorflow	Junior/Senior/Expert
ML Practitioner "Enterprise"	Different ML algorithm application with Enterprise tools like IBM Watson, SAP Leonardo, etc.	Junior/Senior/Expert
AI Design & Research	State-of-the-art algorithmic/mixed-model design (Autoencoder, VAE, GAN, etc.) with extended applied statistic-stochastic mathematical knowledge	Junior/Senior/Expert
ML Product Manager	Both ML algorithmic/application knowledge and confidence with Agile Product Ownership/UX/UI/User-Centric Design methods to serve as an interface between technology and business	Junior/Senior/Expert
ML Project Leader	Mixture of all the above mentioned skills, while some at a peak level. Profound experience required.	Senior/Expert
